Angel Jesus Requejo

Angel Jesus Requejo

December 20th, 2009 | 2nd grade

Angel came to the orphanage in September of 2015, along with his little sister, Gladys. As you can see in the picture, he has a wonderful and contagious smile. Angel's mom works in the apple factories in a town about an hour away. It is a good job, however, the demands of the job kept her from properly raising Angel and Gladys. Having them here at the orphanage gives them both a chance to get an education, as well as be adequately cared for. When his mom has a weekend off, she tries to come visit and attend church with her children. Angel has a wonderful imagination and loves playing outside on the playground, riding his bike, and creating things. He also loves helping take care of our dogs.

Prayer Requests

Angel is very outgoing and affectionate, yet lacks the understanding of boundaries. He has both seen and been through so much in his few years of life. We are praying for the healing power of Jesus' love to minister to and change his precious heart forever.
