Luis Gonzalez Lopez

Luis Gonzalez Lopez

April 9th, 2003 | 8th grade

Luis was brought to Casa de Bendicion in February, 2014 by the DIF (social services). We don't know very much about his past except that he has no parents or any known family members. When Luis arrived, he had a significant amount of problems and special needs. Having been in a number of different orphanages, the government was hoping that Casa de Bendicion might be the very thing that Luis needed. Through much prayer, love, and the hand of God, Luis has made tremendous progress and is quite literally a changed young man. Luis loves being outside, especially if he is riding a bike OR pushing a wheel barrow. And yes, he will push a wheel barrow around for hours. Luis also loves road trips, playing the guitar, and going to church.

Prayer Requests

Luis is one of our special needs children and requires extra love, attention, correction, and patience. He has grown leaps and bounds, but still has a long way to go. Witnessing how much the Lord has worked in his life thus far, we are believing and knowing and praying that God will continue that good work, which He has started.
